

PROFESSIONAL BIOTECHNOLOGY WORKSHOPS

The California Applied Biotechnology Center at Ohlone College is offering training workshops for biotechnology industry employers and employees. The training is designed to enhance skills in various topics relating to biomedical, medical devices, diagnostics, pharmaceutical, and other areas. These workshops are taught by industry professionals with extensive hands-on experience.

WORKSHOP SELECTION:

- Aseptic Techniques [April 2]
- Quality System Reg.-Medical Devices [April 16 & 17]
- Biotechnology for Non-Scientists [May 7]
- Intro to Stats for QA/QC - Basic [June 15]
- Intro to Stats for QA/QC - Advanced [June 17]
- Writing SOPs [April 7]
- Good Manufacturing Practices [April 27 & 28]
- *The FDA Drug Development Process [June 4]*
- Intro to Stats for QA/QC - Intermediate [June 16]

Workshops require a registration fee. Those marked by an asterisk (*) are free.

NOTES

All workshops have interactive activities, hands-on applications and/or practice. Some workshops have laboratory activities in well-equipped labs.

Detailed workshop information is available at:
<http://www.ohlone.edu/org/entrepreneurial/biotechworkshops.html>

WORKSHOP LOCATIONS

Ohlone College

Newark Center Campus
39399 Cherry Street
Newark, CA 94560

Fremont Campus
43600 Mission Blvd.
Fremont, CA 94539

REGISTER TODAY!

Most workshops have limited space, so make your reservation early. Deadline to register is three days before each workshop.

To reserve a spot in the class, complete and FAX this form to 510-659-6446, or email it to: workshops@ohlone.edu

For workshops requiring fees, you MUST also register online. Go to: <http://commed.ohlone.edu>, register and/or sign in, and follow the instructions to enroll.

For more information call 510-659-6184.
